

## **Bishop Winnington-Ingram CE Primary School 2015-2016**

The last year has seen the whole School Community continuing to work towards our impending OfSTED inspection. Our SATs results last year exceeded expectations and we were extremely proud of the result of our recent SIAMS Inspection.

During the year we have had substantial work completed within school: most notably, refurbished Year 6 classrooms, new group rooms and relocation of our library. We have had a new climbing frame installed in the front playground which is being enjoyed by our younger children. We are immensely grateful to the PA for funding this work. A class set of tablets has also been purchased to replace the old computers in the ICT suite.

Our links continue to remain strong with St Martin's Church. This year we have changed the format of some of our services and are enjoying a 'modern' slant on some of our masses.

In addition, to the standard curriculum we believe strongly that children should learn about the world we live in. We offer a huge variety of trips and visits for all year groups and extra-curricular clubs. We have made links with the Guru Nanak Sikh Academy; sing for the local care home residents; enjoy time at St Martin's Mother and Toddler Group; have a strong School Council and pupil leadership team; enjoy visits from the Mayor; our JRSO's have won awards; we won the prestigious Sue Dubois Trophy for our Year 6 Peace Posters; our Sports Teams are thriving; we continue to support Edmond in Rwanda along with a number of other charities over the year - the list could continue on and on.

I would encourage to you visit our new website: [www.bwicofe.co.uk](http://www.bwicofe.co.uk) that we launched almost a year ago. It is full of interesting information about our school.

We look forward to continued success in the future.

**Mrs G.M Westbrook Headteacher**
